Recommendations

Update: Consider adopting Ordinance 1013 on second reading.

Consider adopting Ordinance 1013 on first reading.

Executive Summary

Update: At the August 8th Council Work Session, Staff reviewed the proposed ordinance and identified changes. A slight modification to Section 3 6.31.3(a) was made changing the language to “campus” and maps were inserted to show those areas where no STR’s would be allowed. The Intermediate and Upper Elementary Schools were combined into one point due to the breezeway.

Upon receiving a Conditional Use Application (CUP) for a Short-Term Rental (STR), Staff determined that the code adopted on December 22, 2021 did not allow for STR’s to be placed in the majority of the community and further discovered all previously approved STR’s did not comply with the new code. This discovery was brought to the attention of the Planning and Zoning Commission on July 18th as the CUP was presented. The Planning and Zoning Commission recommended Council consider revision of the ordinance.

On July 25th, Council discussed the short-term rental code in depth at the work session and gave direction to staff to prepare revisions to the ordinance. At the Council meeting on July 25th, the STR CUP was tabled so that staff and Council would have opportunity to review and consider an ordinance amendment.

Staff has provided a track changes draft ordinance for Council’s review. Staff has also prepared a map showing those areas in the community where a STR would not be permitted with revised ordinance. The same map also shows what the buffer zones would look like at 500 feet and 750 feet to help facilitate the buffer distance discussion.

Other corrections included in the ordinance are:

- Correcting Table 4-2 to remove Single Family Residence language from the MH-2 zone.
- Correcting the footnote of Table 4-2 to remove incorrect language on side yard setbacks adjacent to a street.
- Correcting Table 5.8-2 to match Educational Institution language for parking requirements.
- Modifying the age of a mobile home allowed to be placed inside the City limits.

Alignment to Strategic Goals and/or Other Plans

The ordinance meets/affects two strategic directions including Envision and Invest in a Well-Planned, Attractive Community and Economic Opportunity. Discussion involving the applicants gave Council and Staff an opportunity to meet another strategic direction: Create Opportunities for Communication and Citizen Involvement and Pride.

Recommendations

Consider entering into a Memorandum of Understanding (MOU) with the Glenrock Police Department for the sharing of resources within our respective jurisdictions.

Executive Summary

The Douglas Police Department is entrusted to provide the highest level of public safety for its citizens. At times, resources (personnel), are limited, and there is propensity for effective public safety to be negatively impacted. This Memorandum of Understanding (MOU), affords both the Douglas and Glenrock Police Department to share resources in times of need such as critical incidents and special events which draw large crowds (Ex: Wyoming Stae Fair, Deer Creek Days, etc.). If assistance is requested **for an event or for regular shift coverage** , the providing Department will bill the other Department for the hours worked at the specific officer’s rate unless something different is agreed on by the Chief of both departments. There is no expectation of reimbursement for response to a critical incident. The MOU clearly outlines when resources may be shared, the chain of command, and responsibilities of each agency.
