RE: Washington Park Pump: *Bid Award Recommendation*

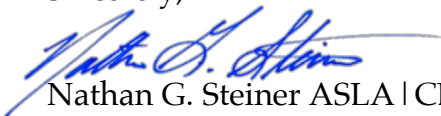

Dear Brandon,

Bids for the Washington Park Pump project were opened on Wednesday, April 17, 2019. One bid was received. It was from a Wyoming resident contractors. I have completed a review of the bid and everything appears to be in order. A copy of the full bid tabulation is attached for your information.

The project was publically advertised and we personally contacted several experienced contractors, inviting them to look at the project. Ultimately, the documents were distributed to 4 Contractors and 7 Material Supply Houses. A bid of \$92,374.00 was received from Chalk Buttes Landscaping, of Douglas. This amount is within 8% of our estimate. I feel that this bid is very reasonable for a project of this size.

We recommend award of the project to Chalk Buttes Landscaping. The total contract amount will be \$92,374.00. This action will award the work to a local contractor, keeping much of the money in the local economy.

Sincerely,

Nathan G. Steiner ASLA | CLARB | CGIA
Landscape Architect
