

Memo

To: Mayor, Council Members and Administrator Cox
From: John Harbarger, Public Works Director
Subject: Public Works Department Reports
Date: August 14, 2023

With the new budget year starting we will be looking at designing and advertising for this year's projects soon. We have quite a few projects in this year's budget, and you will see in the coming months those projects in the monthly reports. The below projects are what has been completed and the current projects in design and what will be happening soon.

Fishing platforms – The fishing platforms are currently under design.

Clearfield booster station – The Clearfield booster station replacement is just under design.

Middle School lift station – This project is under design.

We had Wyoming Lines LLC paint all the downtown stripping, crosswalks handicap parking, City Hall and the main streets. Along with this the Streets and Alleys department painted the curbs on S. 4th and the downtown area.

We opened bids for the slurry seal on August 4. We had one bid and hopefully have the contractor working on sealing streets this fall.

We solicited bids for four new vehicles with the bid openings on August 9. We received bids for two out of the four vehicles advertised.

The last day that the pool will be open is August 13. With the 14th and 15th open for anyone that wants to let the dogs swim.
