RE: Statewide Public Health Order

To Whom It May Concern:

On April 3, 2020 Dr. Alexia Harrist, Wyoming State Health Officer, along with Governor Mark Gordon, modified and extended Statewide Public Health Orders (see attached). These orders supersede all previous Statewide Public Health Orders.

Modifications to these orders impact restaurants and bars specifically. Per the modified order, only curbside, drive-through, drive-up, or delivery services may be used for food and beverage. **Customers are no longer allowed in these facilities, even to pick up food.** All food and beverage must be delivered using one of the means described above.

We have received several calls from the public regarding restaurants/bars that are allowing customers inside. This letter serves as notice that the above orders are in place and are being enforced. We encourage all our local businesses to continue operations while following the Public Health Orders for the health and safety of the public and your employees.

We recognize how trying these times are on each and every one of you, and we thank you for your cooperation.

Please do not hesitate to reach out with questions.
